

Nina Heyder

Nina Heyder: After my training as a photographer, I worked for a long time as a commission clerk for the WDR mediagroup digital. Afterwards I was travelling for 3 years. During this time I hiked a lot, my longest hike was 800km, I slept in my tent almost every night and also did some road trips with my van. During this wonderful time the idea of ZeltzuHause was born and matured more and more. I wanted this sustainable way of travelling in Germany to be as easy as it was for me at my destinations. That's why I founded ZeltzuHause, and since I was fortunate enough to recently receive the founding scholarship NRW, I can now concentrate entirely on fulfilling my vision!
