

## Adrien S. Deniau

As a Consultant at Horwath HTL Health and Wellness, Adrien is responsible for feasibility analyses and strategic advisory for international wellness hospitality and mixed-use real estate developments. Since joining Horwath HTL, he has conducted in-depth feasibility studies, including concept and planning strategies, for medium- to large-scale development projects in Europe, North America, the Caribbean and Asia Pacific. He has also authored a white paper entitled "The Wellness Real Estate Development Process Explained," published by Horwath HTL in September 2019.

With his range of experience in entrepreneurship, investment advisory, project management and human resources, Adrien brings a strategic outlook to the multi-layered wellness-centric development projects at Horwath HTL Health and Wellness.

He holds a Bachelor's degree in Finance from McGill University and a Master of Science in Management from ESSEC Business School. He also holds a certification in Real Estate Financial Modeling from REFM.
