

Dr. Jens Wohltorf

Dr. Jens Wohltorf follows his vision to bring peace of mind to the most stressful part of travel: between the front door and the airport. Jens started Blacklane to bring travelers and local chauffeurs together. The results include fair rates for travelers, more revenue for chauffeurs, and environmental efficiency in 60 countries.

Jens is Blacklane's CEO and co-founder. Before Blacklane, he was a heavy traveler as Principal at the Boston Consulting Group. Jens studied industrial engineering at the Technical University of Berlin with research residencies at the University of California, Berkeley, and MIT, where he studied urban traffic patterns. In 2005 he completed his Ph.D. at the Technical University of Berlin.
